WRECK ON SOUTHERN

Fatal Accident Occurs Near Atlanta, Ga.

TRAIN GOES INTO A BRIDGE

Two Engineers Were Scalded to Death and It Is a Miracle that the Death List Did Not Run Into More than a Score.

Hiram, Ga., Jan. 9.—One man scalded to death, two others fatally scalded, two passengers known to be fatally hurt, three more probably fatally injured, and eighty-odd badly injured, is the result of the most complete wreck ever known on the Southern road, which took place Tuesday afternoon 2½ miles north of here when the second section of the "Chicago-Florida" limited broke through a trestle and went tumbling down an embankment.

That the train did not catch on fire and burn the imprisoned passengers to a crisp is the wonder of the day.

What was the finest Pullman train which ever passed out of Cleveland, Ohio, is half buried in the mud and slush of a Georgia swamp, the brightly burnished engine a mass of scrap iron, the solid vestibule train broken and battered, one car being broken exactly in half, every window broken out, and a useless pile of splintered splendor is what remained.

How every one of the hundred-odd passengers escaped instant death is a mystery, and the fact that the passengers escaped immediate death made them positively happy.

This train, which was due to arrive in Atlanta shortly after noon, left Chattanooga in charge of Conductor Y. R. Norris, of Atlanta, and Engineer Jim Edwards, of Atlanta, the latter being the first to succumb, three hours later.

On the curve run between Dallas and Hiram, a distance of about five miles, and just below the point where the Seaboard, on a high trestle, crosses the Southern tracks on the Chattanooga division, the awful wreck occurred.

The entire train was made up of Ohio people bound for a winter vacation amid the perfumes and flowers of Florida and Cuba. They were scattered throughout the vestibuled train, but the majority were in the dining car in charge of Captain W. H. Fall, of Atlanta.

Just after the track crosses the Seaboard intersection it runs upon an embankment in the middle of which there is a trestle which spans the Copper Mine creek at a distance of ten feet in the air, with the embankment sloping away on either side for forty feet to a lowland of slime and mud.

Just about 2:40 o'clock this train, late, and running fast, hit the curve which is broken by the span over the creek.

Reports vary as to how the accident occurred, but it is generally conceded that the rails spread right after the engine crossed the trestle.

The engine was left a battered mass of iron and brass across the track where it had butted into an embankment and stopped, while each of the coaches, from baggage car to observation compartment, went down the embankment.

The car in the middle of the train, the "Radcliffe," was broken squarely in half. Pullman Car Conductor H. R. Thamer, of Cleveland, was standing in the car and was catapulted into the air, landing in an open field, knee deep in mud, and unhurt, while one half the car went down one embankment, and the other half the other embankment.

Luckily, in rolling down the embankment, the fire in the dining car, always the dangerous source of conflagration, fell with the range toward the ground. This kept the coal in the range and it was soon flooded by Captain Wall which kept the car from catching fire. Not a single car was left on the tracks, and all had to crawl out of the top of the cars, through the side windows or be cut out of the train by the wrecking crew.

As the engine went over Engineer Edwards, with Chief Engineer Snapp and Fireman Moses Baldwin, were caught in the cab and scalded with hissing steam. Engineer Edwards died in a short while after being rescued, and the other two men in the cab are fatally injured.

In the dining car the escape from death was miraculous. It was tilted at an agle which sent every one of the thirty diners, with the waiters, silverware, cut glass, fod and all, to the lower end of the car, and they all had to leave the car by crawling "up-hill" to a window.

To their injuries was added the horror that the train would catch on fire and they would be burned to death like rats in a trap. In a score or more instances it was impossible for the passengers to leave the cars, either from injuries r being pinned under timbers.

As quickly as possible word was sent to theis place for help, and the wires were made to sing colling for aid from the countryside. Every physician for twenty miles was called to the wreck and special trains run to the wreck from Rome, Dalton and two from Atlanta.

The wreck of the Southern Flyer took place two miles south of Dallas, the county seat of Paulding county, on the line between Atlanta and Chattanooga. It is thirty-three miles west of Atlanta.

NEGRO RAN AMUCK.

Shot White Man, Negro Woman and a Girl.

Mount Sterling, Ala., Jan. 9.—On the second night of January, about a mile south of Pennington, Ala., a negro named Orthellos DuBose went to the house of an old negro woman and knocked on the door. A negro girl, aged 7, opened the door for him.

Orthellos threw the girl to the floor and cut her throat. He then turned and shot the negro woman, who was about seventy years of age, and she fell in the fire.

The house caught fire about 2 a. m. that day and it is now thought that it caught from her clothing. The next morning two charred bodies were discovered in the ashes of the house.

Not satisfied with this, DuBose went about a mile south of that place and waylaid and shot J. H. Hodges, one of the leading men of this county. The first shot missed, but the next took effect near his heart, and death followed almost instantly. The negro then went to his father's house.

When the officers went to arrest him there next morning, he resisted, but was overpowered and tied by his two brothers.

The feeling was very bitter against the negro, from both white and black. However, Sheriff Wilcox, with a number of deputies, lodged him in the Butler jail.

Mr. Hodges leaves a widow and eight children.

Famous Union Scout Dead.

Nashville, Tenn., Jan. 9.—Captain Dnalel Ellis, aged 79, the celebrated Union scout of East Tennessee, is dead at his home near Elizabethton, Tenn. During the civil war he seemed to bear a charmed life, and though the confederacy set a price on his head he nevertheless succeeded piloting thousands of East Tennesseeans and Western North Carolinans through the confederate lines to Kentucky, where they joined union regiments. After the war he wrote a book of his experiences which had a wide sale. He was a veteran of the Mexican war also.

Charged with Heresy.

New York, Jan. 9.—Rev. John R. Braeur, of the English-Lutheran church of Jersey City Heights, is on trial before a committee of the synod of the church on the charge of heresy. The congregation is largely with the pastor, who is accused of saying that it was necessary to believe the entire Lutheran creed as the church was "free and independent."

Green and Gaynor Arrive at Atlanta.

Macon, Ga., Jan. 9.—United States Marshal George White, accompanied the federal prisoners, Greene and Gaynor, to Atlanta Wednesday morning. The party left Macon secretly on a Southern train for their destination.

THE TRIAL OF THAW

But Three Jurors So Far Sworn In Box.

PREDICTIONS ARE MADE.

Thought that a Jury Will Not Be Secured Before the Middle of Next Week—Net Proceeds of the First Three Panels.

New York, Jan. 9.—Predictions were freely made at the beginning of this, the third day of the trial of Harry K. Thaw, for the killing of Stanford White, that a jury will not be secured before the middle or the latter part of next week.

There were but three sworn jurors in the box when court convened on Wednesday morning, and they represented the net proceeds of the first three panels of 100 talesmen each.

The third and last panel of the original 300 summoned, reported Wednesday, and there was no thought that it would furnish all of the material needed to complete the trial, twelve. As a result, the court ordered that 200 additional talesmen be summoned to report Thursday and Friday morning.

At the first trial, some 370 talesmen were examined before a satisfactory jury was empaneled.

JAPAN TOO CONCERNED

With Other Matters to Think of an American War.

Paris, Jan. 8.—A Paris paper prints an interview emanating, it says, from an "authorized Japenese source," with the object of showing that Japan is so absorbed with mainland of Asia that war with America is impossible.

"The entire attention of Japan," says the interview, "is occupied with China and Corea, where developments are occurring which are giving Tokio the greatest concern. China has just dismissed a number of Japanese instructors who have been replaced by Germans. The Manchurian situation is full of complications. China demands immediately the application of the treaty of Portsmouth which would deprive Japan of the possibility of exercising an efficacious influence in Manchuria."

WAS TRACKED FOR 35 MILES.

Phenomenal Race with Hounds After Escaped Convict.

Valdosta, Ga., Jan. 9.—The phenomenal race made by Charlie Wright, a negro convict who escaped from the county chaingang Sunday and was captured after being chased for thirty-five miles by track hounds, breaks the chaingang annals.

While the guards were not watching closely, Wright made a break for liberty, and was gone for more than an hour before his absence was discovered. When the dogs were put on the track four hours had elapsed, but the hounds had no trouble in picking up the trail. The trail led along through swamps and ponds and up almost to the Berrien county line, and then swerved to the east to Naylor, Ga., fourteen miles east of here, where the quarry was run down and captured. Course taken by him in his flight was fully thirty-five miles.

Have Resumed Operations.

Eufaula, Ala., Jan. 9.—The Eufaula and Harbour cotton mills of the city after having closed down for a period of two weeks, resumed operations. Both plants underwent a thorough overhauling and some improvements and are now running on full time. A strong demand for the products will require a full quota of operatives and an era of prosperity seems to be dawning that has not been experienced in many seasons.

Filed Bankruptcy Petition.

New Your, Jan. 9.—A petition in bankruptcy was filed Tuesday against Louis Witzerhomsen, a wholesale diamond dealer in Maiden Lane, by creditors. Robert L. Harrison was appointed receiver. The nominal assets are in the neighborhood of $200,000 and the liabilities it is said probably will not be less than $150,000.

DIED OF BROKEN HEART.

Mother Waited for Boy to Find Him a Deserter from the Army.

New York, Jan. 9.—The absence of her youngest son, John, added another note of pathos to the funeral of Mrs. Mary F. Sweeney, who died the other day of a broken heart.

John was the youngest of the family and his mother's pet. A year and a half ago after his father's death, he disappeared from home, and it was only after months of searching that the mother found that he had enlisted in the navy.

Through the navy department, she then discovered that her boy was ill in the naval hospital in San Francisco. Mrs. Sweeney wanted him at home for Christmas and obtained his release by money which she sent to her son. Christmas came and no word from him, but the mail carrier brought a letter. She looked at it and fainted.

It was her own letter returned and across the envelope was stamped the one word "deserter." From that moment she failed rapidly until she died, the doctors say, of a boken heart.

SUES FOR $1,000 COSTS.

North and South Road Sues Lieutenant Governor Gray.

Birmingham, Ala., Jan. 8.—An interesting aftermath of the legal proceedings of Lieutenant Governor H. B. Gray against the South and North railroad, a part of the Louisville and Nashville system, was the filing in the city court here by the South and North of a suit against Mr. Gray for $1,000 costs.

Mr. Gray, as a minority stockholder in the South and North, sought an injunction against the Louisville and Nashville, restraining it from operating the road on the grounds that minority stockholders were being ignored. The case was carried to the supreme court, and won by the Louisville and Nashville. In seeking the injunction Mr. Gray executed an injunction bond of $1,000, and it is upon this that the road seeks to recover the cost of the suit.

GREAT PREPARATIONS MADE.

Auto Race From New York to Paris by Way of Alaska.

New York, Jan. 9.—The executive committee of the American Automobile association passed a resolution pledging the association's help for the proposed motor race from New York to Paris by way of Alaska, Behring sea and Siberia which is to be run under the auspices of Le Matin of Paris and the Times of New York.

The committee says that when the proper time arrives it will issue a request to all affiliated organizations asking for all help possible for the racers.

Great preparations arebeing made for the race, and those who have been over the route believe that it is possible for the cars to traverse it. It is expected tha a number of foreign and American enries will be made. Le Matin organized the race last year from Pekin to Paris which was a huge succes.

Goes into Receiver's Hand.

San Francisco, Cal., Jan. 9.—The big department store on Market street, which went under the name of Kragen's, went into the hands of an assignee nominated by the board of trade. The firm is reported to be in debt to any extent from $250,000 to $400,000. The principal creditors are in the east. The board has nominated C. R. Havens as assignee. The value of the assets is unknown.

Clearing House Checks Retired.

Cleveland, O., Jan. 8.—Because of the marked improvement in the local financial situation, the Cleveland clearing house has issued a call for the retirement of 25 per cent of the clearing house checks. The savings banks no longer require notice of withdrawal of deposits.

To Entertain Fleet's Crew.

Rio Janiero, Jan. 9.—The program for the entertainment of the officers of the American battleship fleet under Rear Admiral Evans, has been practically completed. The fleet is expected Jan. 13, and will remain here ten days.

7 OF CREW PERISH

Unknown Schooner Stranded Off North Carolina Coast.

ONLY TWO WERE SAVED

Captain of the Vessel Among Those Who Were Lost—Disaster Occurred On the Treacherous Diamond Shoals. Was Bound For Charleston.

Norfolk, Va, Jan. 9—A brokenmessage received here over the United States sea coast telegraph wires from Cape Hatteras, on the North Carolina coast, reports the stranding and loss on the treacherous Diamond Shoals of an unknown schooner out of whose crew of seven men, five perished and two were saved.

The message, which fails to give the name of the lost vessel, reports her to have been a schooner bound from Longpoint, Me., to Charleston, S. C., laden with fish scrap.

The captain of the vessel was one of the crew who were lost.

$250,000 FIRE.

Large Furniture House Destroyed in New Orleans.

New Orleans, Jan. 9.—Fire in Royal street, near Iberville, in the heart of the business district, here Tuesday morning caused damage to the extent of about $250,000. The five-story building occupied by the W. G. Tebault furniture house was practically destroyed. Tebault's stock is a complete loss, and three other structures were damaged.

Mrs. Ed M. Land, cashier for the Tebault firm, was badly injured by falling glass while placing valuable papers in the safe. Her face was severely gashed.

The loss falls most heavily upon Mr. Tebault and upon George Denegre, the owner of the building, which was insured for only $20,000.

It has not been definitely determined what was the cause of the fire.

FINANCIAL AFFAIRS.

Reduction of $41,000,000 in Cash Holdings of All National Banks.

New York, an. 9.—According to the monthly circular of the National City bank, $276,000,000 in cash disappeared between the call for the conditions of the national banks responding o last August and he one last month.

This includes a net reduction of $41,000,000 in the cash holdings of all the national banks in the country and a loss of $13,000,000 cash reported by the New York City Trust companies together with the known addition to the circulating medium during this period, including $100,000,000 of gold imported from abroad and $72,000,000 cash released by the United States treasury.

FREIGHT CAR AS A JAIL.

Justice of the Peace Found To Be Unprofitable.

Atlantic City, N. J., Jan. 9—Justice of the Peace Carver, of Elwood, will hereafter look for something more substantial to use for a jail than a freight car. The justice is a terror to motorites, and Tuesday a speeding driver was arrested.

A friend was allowed to run the machine into the city to obtain money to pay the fine and the motorist was locked up in a freight car, the village having no lock-up. When the justice came back from dinner he found the car gone. It had been picked up by a passing train and run to Camden. The motorist telephoned his thanks for his escape to the justice.

Locker Clubs Not Favored.

Macon, Ga., Jan 8.—It is almost a certainty that the locker club will not find support in Macon. Already members of the new city council are working on an ordinance which if passed will exclude them by law. There has not been a single public expression by an individual to the effect that such an organization will be planned.

NEWS OF CITY AND COUNTY CONDENSED

C. D. Dennis, general superintendent of the Dutton Phosphate Company, returned to Dutton yesterday, after a brief business trip to this city.

Miss Ida Burkhim has returned to her home in this city, after a pleasant visit to relatives and friends in Jacksonville. Miss Burkhim proved herself quite a favorite, as several social functions were given in her honor in the Florida metropolis.

Attorney J. A. Williams of Cedar Key is in the city on a visit to his family in North Gainesville. Col. Williams is practicing his profession in Cedar Key, but keeps his family here on account of the superior educational and religious advantages which Gainesville possesses.

C. W. de Martine, United States deputy revenue collector, who makes his home in this city, left yesterday for Ocala, Dunnellon, Archer, Cedar Key and intermediate points on official business. Mr. de Martine has been in the service for several years, and is quite popular throughout his territory.

Mr. and Mrs. J. R. Bowers of Sanford, N. C., are in the city, guests of the Witherspoon House. Mr. and Mrs. Bowers were recently married in North Carolina and will winter in Florida, probably in this city, where Mr. Bowers is well known, and whose friends will be glad to welcome him and his charming wife.

W. B. Dobbins, a traveling man now registering from Atlanta, but who is a Floridian well known and popular in this section, spent yesterday in this city. Mr. Dobbins is representing Daniel Miller & Co., wholesale notions, Baltimore, and has established a fine trade throughout this section on account of his personal popularity.

Mr. and Mrs. L. A. Jernigan are at home again, after several days pleasantly spent with the family of Captain B. W. Fontaine, Micanopy. Mr. Jernigan has been indisposed for some time with la grippe, etc., but friends will be glad to learn that he feels now greatly improved in health, and has resumed his duties at the store.

Dr. M. H. Barnett of Phillipsburg, N. J., and J. P. Folk of Easton, Pa., have arrived in the city, and will spend the next few weeks here. Both gentlemen are enthusiastic sportsmen, and come every winter to this section, where they enjoy the hunting with their friend, Captain J. Maxey Dell. Friends are glad to welcome them here again.

A. J. Kennedy of the East Coast is in the city on a visit to his mother, Mrs. C. E. Kennedy. Mr. Kennedy, who is well known here, is now connected with the bridge construction department of the Florida East Coast railway, and is holding a responsible as well as lucrative position. His friends here will be glad to learn of his success.

Mrs. E. F. Taylor and T. L. Lamb of Brunswick, Ga., who have been here for the past few days as guests of relatives, Mrs. Rosa Waters, accompanied by Wallace Waters, have gone to Hickman, where they will enjoy a hunt with W. T. Waters. Mr. Lamb is very fond of shooting, and it is said that he has quite a reputation as a marksman.

W. H. Camp and son, Clarence, formerly of Albion, where they were extensively engaged in mining of phosphate, but for the past few years residing at Ocala, were in the city yesterday. They were en route home from Alachua, where they have been on a business deal for the past two or three days. They are still engaged in the mining of phosphate.

Rev. T. L. Z. Barr, the Methodist divine of Melrose, who was transferred at the last conference from Micanopy, is in the city, and yesterday called at The Sun office, renewing his subscription. Mr. Barr states that while he regretted naturally to leave his charge at Micanopy circuit, he felt that he had "fallen among friends" in his new appointment, as the people were so kind to himself and family. He is the guest of Rev. T. J. Nixon while here.

S. L. and Walter S. Turner, two well-known residents of the Lake View section, were among those who spent yesterday trading in this city. They report heavy rains and wind in their section Monday and Tuesday, but little damage, as the truckers were prepared to take care of the conditions. The farms as a rule were well ditched, which relieved them of "drowning out," and the wind was not of such velocity as to cause great damage to vegetation.

Mrs. Hitch, for some time one of the popular and efficient milliners at the store of The G. W. Hyde Company, has gone to Baltimore, her old home, where she will spend a vacation. She is well pleased with this section and expects to return in plenty of time for the spring opening. During her vacation she expects to keep well posted on the various coming styles for the spring, with the result that the customers of The Hyde Company will get the benefit of it.

Mrs. J. W. Wideman of DeLand, who has been in Micanopy for the past few days, having been summoned on account of the illness of her mother, Mrs. Edwards, arrived in the city yesterday. Friends will be delighted to learn that the patient's condition has so much improved that she is up again, and that she expects to arrive in Gainesville within the next day or two, when she will be the guest of Mr. and Mrs. D. G. Edwards. While here Mrs. Wideman will also be with Mrs. D. G. Edwards.

SUFFERED WITH ECZEMA 25 YEARS

Limb Peeled and Foot Was Like Raw Flesh—Had to Use Crutches, and Doctors Thought Amputation Necessary — Montreal Woman Writes of Cure Seven Years Ago.

BELIEVES LIFE SAVED BY CUTICURA REMEDIES

"I have been treated by doctors for twenty-five years for a bad case of eczema on my leg. They did their best, but failed to cure it. My doctor had advised me to have my leg cut off, but I said I would try the Cuticura Remedies first. He said, "Try them if you like, but I do not think they will do any good." At this time my leg was peeled from the knee, my foot was like a piece of raw flesh, and I had to walk on crutches. I bought a cake of Cuticura Soap, a box of Cuticura Ointment, and a bottle of Cuticura Pills. After the first two treatments the swelling went down, and in two months my leg was cured and the new skin came on. The doctor could not believe his own eyes when he saw that Cuticura had cured me and said that he would use it for his own patients. I used two cakes of Cuticura Soap, three boxes of Ointment, and five bottles of Resolvent, and I have now been cured over seven years, and but for the Cuticura Remedies I might have lost my life. I have lots of grandchildren, and they are frequent users of Cuticura, and I always recommend it to the many people whom my business brings to my house every day. Mrs. Jean-Baptiste Renaud, clairvoyant, 277, Mentana St., Montreal, Que., Feb. 20, 1907."

DANGEROUS FISH.

Ways of the Green Moray of Bermuda and the Devilfish.

When one speaks of dangerous fish the first that come to mind are the shark and the octopus. But neither of these is really formidable to fishermen. The shark never attacks a boat and the octopus very rarely.

A much worse creature than either shark or octopus is the devilfish—a large ray that is common in the warm waters of the Atlantic. This fish grows to a weight of a ton and a half and, besides formidable teeth, is armed with a horrible barbed and poisoned spike in the tail. It has often been known to attack boats.

A fishing party in a launch succeeded in harpooning one of these fish in the bay known as Aransas Pass, Texas. The brute towed them eighteen miles out to sea and very nearly upset the launch. It was twenty-five feet long and weighed 3,000 pounds.

A very nasty customer is the green moray of Bermuda. This rather resembles a conger eel, but is green in color and savage beyond any fish that swims. An English marine officer, fishing off Bermuda a year or two ago, hooked a large specimen and began to pull it in.

His negro boatman, his eyes staring with fright, begged him wildly to cut the line. The officer at first refused, but when he saw the fish turn on itself and with a crunch of saw edged teeth bite a large piece out of its own body he came to the conclusion that it was not a nice thing to have in a small boat.

The swordfish is a dangerous creature. Swordfish are caught for the sake of their oil and flesh, especially along the Atlantic coast of the United States. They are harpooned in the same manner in which whales used to be killed. Quiet enough until attacked, the swordfish then seems to go raving mad and fights with unmatched ferocity.—London Answers.

MAKE THE STOMACH WORK.

Indigestion Can Never be Cured by Mollycoddling.

Don't try to cure your stomach trouble by coaxing, fussing, dieting and mollycoddling. Make the organ work. If it cannot take care of the food you eat without complaints such as flatulence, indigestion, headaches, and the feeling of fullness or distress, make its muscles work by using Mi-o-na stomach tablets.

The time to treat a disorder or weakened stomach is when you begin to suspect that you have indigestion, or the suspicion will turn to certainty very soon. The heartburn, the flatulence, the coated tongue and heavy and dull feeling after eating that come occasionally after you eat too much of something that does not agree with you, can all be cured by Mi-o-na.

Try a 50-cent box of Mi-o-na on J. W. McCollum & Co's. guarantee of money back if it does not do all that is claimed for it.

Welsh by Extraction.

In Lord Halsbury's young days, before he was solicitor general and before he even dreamed of becoming lord chancellor, he was the leader of the South Wales circuit. In this capacity he once fought very strenuously on behalf of a Welsh public authority and rather amused his listeners by the ardor with which he identified himself with the interests of the locality.

"Come, come," interposed the judge good naturedly, "you must not argue too much in that strain. You cannot make yourself out to be a Welshman, you know."

"Perhaps not," returned the future lord chancellor, "but I have made a good deal of money out of Welshmen in my time."

"Well, well," replied the judge, "we may call you a Welshman by extraction."—London Tit-Bits.

MEETING OF BAR ASSOCIATION.

Officers Elected for Ensuing Year. Matters of Importance Discussed.

A most interesting session of the Gainesville Bar Association was held at the office of Col. W. W. Hampton Thursday afternoon, which was well attended, as there was a great deal of business of importance to be transacted, including the election of officers for the ensuing year.

The meeting was called to order by President Hampton, after which the business of the session was taken up, the first being election of officers for the ensuing year, which resulted as follows:

Judge Syd L. Carter, president; Christopher Matheson, vice-president; C. R. Layton, secretary and treaurer. Messrs. Hampton and Horatio Davis were elected as additional members of the executive committee, the officers of the association comprising a part of the committee.

The matters of revision of the fee bill and revision of the by-laws were discussed, and a motion prevailed that a committee be appointed on each. The committee will be appointed at a later date.

The question of certain matters in federal legislation was also brought up, and discussed with a great deal of interest. As a matter of course this was of a local nature, affecting Gainesville in particular, and it was moved that a committee be appointed to confer with Congressman Clark in the premises.

Attorneys Thos. W. Fielding and J. C. Adkins were admitted to membership of the association.

After discussing a few other matters of interest to the association, the meeting adjourned until February 3, when it is expected that the reports of the committees will be ready, and "'possum an' 'taters" will be served.

Baracca Entertainment.

On last Wednesday evening the Baptist Baraccas entertained the Philathean class at the home of Mr. and Mrs. Robt. McClellan.

It was an ideal night for such an occasion. Both classes were well represented. There were four interesting and amusing features of the evening, that of finding partners, a description contest, a drawing contest, and last but not least appreciated, the contest around the punch bowl.

The prizes of the evening were won by Miss Julia Bunch in the description contest, and Miss Maude Fielding in the drawing contest.

Meeting Medical Association.

The Medical Association held its regular meeting in the office of Dr. Clyde L. Carter Wednesday evening, at which matters of interest to the fraternity were discussed. While the meeting was not as largely attended as it might have been, owing to the fact that some of the members were indisposed, while others were detained on account of professional work, the meeting proved a most satisfactory one.

PROMINENT PHYSICIANS

Endorse Our Cod Liver Preparation, Vinol.

Many of the most eminent physicians are now prescribing Vinol as the most satisfactory cod liver preparation. Thus it is fast superseding other forms of cod liver oil and emulsions.

W. N. Rand, M. D., of Evans Mills, N. Y., writes: "From personal experience, I am able to appreciate the value of your cod liver preparation, Vinol. I have used it and prescribed it largely during the past eighteen months, and I want to say that Vinol is all you claim for it and more."

Dr. Bonchelle of Thomasville, Ga., a physician well known in the South, writes: "I use Vinol in my family and in my general practice with most excellent results for bronchial and pulmonary troubles and to create strength."

Another physician writes: "I am satisfied that Vinol derives its wonderful life-giving and strength-creating power from the medicinal curative elements found in the cod's liver. It is the most satisfactory strength creater and vitalizer for old people, weak women and delicate children which it has ever been my pleasure to prescribe."

The reason that Vinol has such remarkable curative and strength-creating power is because it is made by a scientific, extractive and concentrating process from fresh cods' livers, combining with peptonate of iron (which is a needful constituent for the blood) all the medicinal, healing and body-building elements of cod liver oil, but no oil.

We ask every person in Gainesville who is in need of such a medicine to try Vinol on our guarantee to return money if it fails to give satisfaction.—W. M. Johnson, Druggist, Gainesville, Florida.

MUSICAL AND DRAMATIC.

The Club Will Have Another Rehearsal Tonight.

The rehearsal of the Gainesville Musical and Dramatic Club will be held Friday (tonight) at 7:30, at the house of Mrs. C. J. Richards. All the voice parts have now been copied and each member is requested to bring in his or her score, so that we may have all copies arranged and firmly bound in the order in which they appear in the opera.

Those to whom copies were originally given, and who are unable to attend, should return them, as new members have been frequently without a score owing to the fact that the edition was limited; the preparation of another would involve a great deal of exacting labor, and it is to be hoped that will not be demanded.

There is room yet for many, especially alto, bass, and tenor voices, and any member to whom an intimation of a desire to join is made will bring the matter to the attention of the club's officers who will arrange, if necessary, for private rehearsals to enable such new members to catch up on what has already been accomplished. W. E. CADWALLADER, President.

DR. CROW'S LECTURE.

Spoke to Fair Audience at Public School Auditorium Yesterday.

Dr. C. L. Crow, of the department of modern languages, University of Florida, according to appointment, delivered a lecture Thursday afternoon in the auditorium of the Gainesville Graded and High School, taking as his subject, "Higher Education in Germany, and in the United States."

Dr. Crow is a gentleman of refined education, and his remarks upon this occasion demonstrated the fact that he was well versed along the lines upon which he spoke. Those who heard the lecture were very much impressed, and felt that they had received a benefit.

Delightful Card Party.

A delightful card party was held at the home of Mrs. J. M. Haile Thursday afternoon, which was well attended, and which was highly enjoyed by all who had the pleasure of being present.

Five hundred was the game, and there were six tables. The prize was awarded to Mrs. Jackman.

During the afternoon a delightful luncheon of quail on toast, salads, etc., was served, and at the conclusion the guests voted Mrs. Haile a most charming hostess.

NEW PLEASURE RESORT.

John Chesser Introduces New Feature in Gainesville Sports.

The newest and most interesting resort at present in Gainesville of an athletic sporting nature is the box ball alleys on East Liberty street, next to the Gainesville National Bank, which have just been installed by John Chesser. The resort was opened for the first time Wednesday evening, and all during the evening, and Thursday and Thursday evening, were crowded with anxious and enthusiastic players.

Box ball is a new feature of athletic amusement here, and is destined to take well. While the game is played on the same principal as ten-pins, the exercise, while sufficient, is not so severe as to cause that soreness brought on by bowling, which gives the box ball a great advantage.

Mr. Chesser proposes later to install pool tables, and will conduct an up-to-date place in every way. He will have special afternoons devoted to ladies, and altogether the place will be conducted on a most refined scale.

A SERIES OF LECTURES.

Mrs. M. McKinstry Will Lecture in Advent Christian Church.

Rev. Mrs. McKinstry of Richford, Vt., will begin a series of nine lectures at the Advent Christian church on East Main street, Sunday, January 12th, at 11 a. m.

The speaker will trace the history of the world's four predominant empires, beginning with Babylon, Sunday morning. Subject of the lecture Sunday night will be "The Medo-Persian Empire." Monday evening the subject will be "The Grecian Empire." Tuesday evening she will take up "The Roman Empire," which will be continued under various phases for several evenings.

At the close of each lecture Mrs. McKinstry traces the prophecies foretelling the great events of history, and thereby establishes the accuracy of prophecy.

No admission; seats free, and those who miss hearing this lady will miss one of the treats of a life-time.

DEATH OF MRS. QUINN.

Well-Known Lady of This City Passed Away at Her Home in Memphis.

Information has been received in this city of the death of Mrs. Pat Quinn, which occurred at her home in Memphis, Tenn., Monday.

Deceased was forty-five years of age, and was a sister of Mrs. E. A. Davies of this city. She was well known here, having visited Mrs. Davies on several occasions, and had many friends here who regret exceedingly to learn of her death.

Mrs. Davies was notified of the critical illness of her sister, and left immediately for her bedside, but was intercepted by a telegram at Macon, Ga., announcing her death.

The remains were taken to McIntyre, Ga., where they were interred by the side of the husband of deceased. The funeral was attended by Mrs. Davies who is still in McIntyre.

A Complimentary Hop.

A complimentary hop will be given at the Elks' Home this evening, in honor of Misses Louise Harris and Alice Bullock, two charming young ladies of Ocala, who are visiting friends in this city. These young ladies have been the recipients of many courtesies, which they appreciate. They are possessed of that disposition which must make admirers everywhere, and their friends feel honored to favor them.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old.

In these days of strenuous competition it is necessary to maintain, as long as possible ones youthful appearance.

It is impossible to do this without retaining a luxurious growth of hair.

The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use.

Herpicide makes an elegant hair dressing as well as Dandruff cure.

Accept no substitute—there is none.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

THE SHOE RASP.

Once Familiar, It Took Its Departure With the Pegged Shoe.

"How many of the familiarly used things of the present day that we now consider as indispensable," said the middle aged man, "will in due time be supplanted by still better means, just as so many once familiar things of the past have been?

"You take, for instance, the shoe rasp. There was a time when no shoe store could have got along without a shoe rasp. But in what shoe store would you find a shoe rasp in use now?

"The shoe rasp was commonly attached to one end of a short counter that in most shoe stores stood at the front end of the store, the counter upon which shoes were done up. It was cast in the form of an insole of a shoe, slightly curved and having the rasp grooves cut on its convex side. Attached to this rasp on its concave side was a stout steel rod about a foot in length which was set upright in a stout wooden block firmly attached to the counter.

"So here we had a stoutly anchored rasp in a nearly horizontal position and with its cutting face up, a rasp over which you could draw a shoe in such a manner as to bring the inside of the sole in contact with it and with which you could rasp thoroughly every part of the inside of the sole of the shoe.

"But what did you want to rasp the inside of the shoe for? Why, to clear it of pegs that might be and probably were sticking up there, for in those days practically all the shoes made were pegged. The soles were pegged on to the uppers with wooden pegs which were of about the shape and size of oats, except that the shoe peg was pointed at only one end.

"In those days sewed shoes, which were then all sewed by hand, were rather expensive, and they were considered as more or less of a luxury to be worn only by people of very comfortable means or for best or Sunday wear.

"In the pegged shoes there were always more or less pegs sticking up inside, and the use of the shoe rasp was to file these off so that the shoe would be comfortable to wear.

"A father would come in with his young son to buy a pair of shoes for him, and perhaps the boy was too young to be able to tell exactly where the pegs were. And when a pair of shoes had been selected for him the father was always certain to say to the shoe dealer, 'You'll be sure to get out all the pegs, won't you?' and the shoe dealer would say, 'Certainly, sure.' And in whatever case always the last thing done by the shoe man before he wrapped up a pair of shoes would be to get out the pegs."—New York Sun.

The Times-Union remarks that "there is some prospect that a sheriff will be elected in Alachua county this year provided each candidate for that office, among the hosts offering to assume its duties, does not vote for himself."

"The cost of funerals has gone up," says The New York World. Well, as long as the people keep the Republican party in power, which protects the coffin trust, they will have to stand the exactions of that trust and all the other tariff-protected trusts.

Those Senatorial candidates who are congratulating themselves that Congressman Sparkman is "out of it" are having nightmares for fear they will wake up some morning and find the logical successor to Senator Mallory very much "in it." If Mr. Sparkman does not make the race for United States Senator some other strong man outside of Jacksonville will enter the race and sweep the field. The people of Florida are not going to stand for both Senators to come from Jacksonville, and they are very well satisfied with Senator Taliaferro. He has a way of "doing things" that accomplishes results, and that's the kind of man the people need at Washington.

The temperance people seem to experience considerable difficulty in securing sufficient signatures to the petition calling for a "wet" or "dry" election in Duval county. As a local option election cannot be held within less than sixty days of any State election, and there will be so many elections this year, it is not at all probable that the people of Duval county will have an opportunity to vote upon the liquor question during 1908. The saloon men of the Florida metropolis are therefore "safe" for 1908.

The President is reported to have talked over with Secretary Taft the question of retiring Lieutenant-Colonel Marshall because this army officer is unable to find a horse that can carry his three hundred pounds of body. If the secretary hasn't forgotten the proverb about people living in glass houses, he doubtless will be inclined to deal gently with Colonel Marshall.

After mature consideration the management of The Sun has decided to let the subscription price of the semi-weekly edition remain at one dollar per year, but no subscriptions will be taken for less than six months, and no name will be entered for subscription unless cash accompanies the order.

Attorney-General W. H. Ellis has no opposition for re-election at present, but it is said by those who claim to be on the "inside" that the administration forces will soon secure the consent of a man to make the race who is more "in accord with us" than Mr. Ellis has been.

We publish in this issue, for the benefit of our readers, the ordinance known as the "Plumbing Ordinance." This ordinance has never been published the number of times required by the city charter, but it is not probable that anyone will contest its legality.

There would seem to be no reason why the Government should not accept certified checks on responsible banks for all public dues, instead of the present plan of being compelled to pay in legal tender.

The "Iowa idea" that the tariff fosters the trusts is being lost sight of in the new idea of the Republican railroad machine that Governor Cummins has no right to aspire to succeed Senator Allison.

STATE NEWS IN BRIEF

Ft. Myers has the distinction of having a genuine Country Club house that will compare with any similar institution in the State.

There was only one cargo of phosphate rock shipped from Punta Gorda during the month of December. There was only about one-third of the amount of phosphate usually shipped each year from that port last year.

The southern section of Dade county is reported to be in a most prosperious condition. The usual acreage of truck will be planted and the tourists are pouring in in larger numbers than last year.

What appeared on last Friday to be only a sudden spurt in the turpentine market has developed into what promises to be a steady and persistent advance. There was an advance in spirits of 7½c in three days.

Before the court house door in Dade City Sheriff Sturkie destroyed a wagon-load of bottled whiskey which had been confiscated by the authorities, burying the broken bottles in a deep hole just outside the door.

Mistaken for a burglar, Pearlie Moody, a well-known young man of Jacksonville, was shot and killed by his first cousin, August Poppell. The unfortunate tragedy occurred at 738 West Adams street, where both parties resided.

The Florida East Coast winter passenger trains will carry no express or express cars. This is the first time that this has ever been done. The express between Miami and Jacksonville is to be handled by the through express only.

The Young Men's Christian Association of Jacksonville have let the contract for their new building, which is to be five stories high and fireproof. The work of construction will begin soon and will be rapidly pushed to completion.

Fishing in the neighborhood of Titusville has been quite good for some time past. Among those who made good catches of fish is Fred Nauman, who, in eight months caught 100,000 mullet, which netted him the nice little sum of $1,600.

Hon. Champ Clark of Missouri has accepted the invitation to be present at the formal opening of the Florida Mid-Winter International Exposition, and the distinguished Democrat, a figure of national standing, will make one of the opening addresses.

From reports submitted, the St. Augustine Humane Society has accomplished much good work in the past year, looking to the suppression of cruelty to animals, and the society will continue to prosecute its humane work in the year now opened.

Pickpockets are believed to be plying their nefarious vocation in Jacksonville. Various reports have come to the police within the last week of missing pocketbooks and handbags lost in the crowds which throng the streets of the city during the tourist season just now beginning.

R. L. Polk & Co. are industriously at work on the new city directory of Jacksonville for 1908. Those in charge of the work state the coming directory will not only be the handsomest, but the largest ever issued in the city of Jacksonville. It is believed that the new city directory will indicate a population exceeding fifty thousand.

L. M. Rayson, a conductor on a Seaboard freight train, had some words with Ed Logan, a negro fireman, at Baldwin, and upon the arrival of the train in the western part of Jacksonville the negro fireman went up to the conductor and struck him on the head with a spade, felling him to the ground. The conductor was sent to the hospital, and it was found that his skull was fractured and may result fatally. The negro made his escape and has not yet been captured.

MELROSE NEWS.

Melrose, Jan. 9.—At the town election held Tuesday the following officers were elected: Mayor, O. C. Husband; Councilmen, A. A. McRae, L. M. Baldwin, C. P. Huffman; Clerk and Treasurer, N. E. Priest; Collector, S. Howard; Marshal, F. H. Sutton.

Rev. T. L. Z. Barr preached his first sermon at the Methodist church on Sunday to a large audience, assembled to greet their new pastor and his family.

The supper given by the Masonic lodge will take place at the Huffman House on the evening of January 31st.

The lumber for the new boat to be built to run between Melrose and Waldo is beginning to arrive and work on it will soon be started. In the meantime the work of cleaning the canals will be continued until the entire route is clear.

Miss Lenna Jackson has returned from the St. Augustine Hospital, and while still a little weak, is progressing nicely on the way to recovery.

Why

Should your baby suffer? When he is fretful and restless, don't experiment on him and use any old thing your neighbor recommends. Buy a bottle of White's Cream Vermifuge, greatest known worm medicine and cure for children's diseases. It is mild in its action, builds up the system, makes thin, puny babies fat. Mrs. J. C. Smith, Tampa, Fla., writes: "My baby was thin and sickly, could not retain its food and cried all night. I used one bottle of White's Cream Vermifuge and in a few days baby was laughing, happy and well." Sold by W. W. Johnson.

Owe No Man Anything

(By Rev. S. M. Lyons.)

Render to all men their dues. Owe no man anything.—Rom. xiii, 7-8.

God commands us at the peril of our salvation to render to all men their dues, and to owe no man anything. The honest keeping of this commandment is one of the chief marks of a real Christian, while culpable neglect to give others their dues is a mark of disgrace and brings religion into ridicule.

A common form of breaking this divine law nowadays is the non-payment of debts and the non-return of loans. The greatest pest of business men, the most insolent imposter and the most brazen defrauder that torments society, is the man or woman that owes bills or loans and willfully refuses to pay. Storekeepers, doctors, undertakers, publishers, owners of houses and others suffer much more from bad debts than from stealing, robbery, business depression and other causes combined.

The culpable debtor or dishonest borrower is a thief because he takes and keeps unjustly the goods of others. The thief takes secretly the property of others, and the bad payer procures goods under the pretense of paying, but does not pay. Where is the difference, then, between the person who does not pay for goods and the thief? The loss is the same to a man whether he is robbed or sells goods for which he receives nothing in return. Do you not suffer the same injustice, whether ten dollars are stolen from you or some sleek individual borrows that sum and will not return it? The injustice is the same in both cases, hence willful debtors and dishonest borrowers are thieves and are to be branded as the worst enemies of society.

A willful debtor or dishonest borrower is a most shameful defrauder, because he breaks a contract entered into with a fellow-man in good faith, and binding in conscience until fulfilled. When a person buys goods on credit, rents a house, subscribes for a paper, employs a doctor or undertaker, he agrees to pay within a reasonable time. When he culpably fails to do so he violates his contract, his pledge of honor and becomes guilty of having obtained goods and services by fraud; the dishonest borrower incurs the same infamous stigma. To injure a person is a great wrong that can be made good only by reparation, but to add to injury the crime of fraud is to become worse than a thief.

The dishonest debtor or borrower is a base ingrate. The ingratitude and insult offered obliging storekeepers, doctors, owners of houses, lenders of money and others by such impostors are most contemptible. Have you not heard men say after having been victimized by such ingrates: "It is bad enough to be robbed, but it is most painful to be shamefully deceived."

This is especially the case when a loan is made or credit given as a special favor, only to be repaid by the blackest ingratitude. The sleek borrower and buyer makes profuse promises to pay in a certain time, but they ignore these promises and grow indignant if you request the return of your money or payment for your goods.

Such dishonest debtors and borrowers often injure deserving and upright people in adverse circumstances, who are deprived of the advantage of borrowing and buying on credit. Storekeepers and others, after being defrauded a few times by dishonest debtors, will refuse credit to many who are deserving. Thus bad payers and dishonest borrowers close the doors of credit against the worthy poor and cause them to suffer want through inability to procure goods without cash.

Too often odium is cast on religion by so-called Christians, who willfully refuse to pay their bills and restore loans. Often it can be said: "Some good churchgoers are bad debt and loan payers." They run recklessly into debt for more luxuries, drink, cigars, parties, dress, entertainments, etc., and do not in the least worry about paying their bills. They borrow here and there, live beyond their income, ape the manner and style of the rich, dress extravagantly, have luxurious weddings and expensive funerals, without considering how they can pay their debts. Economy is praiseworthy, but wastefulness and extravagance are sinful. They who can save can afford to give to God His dues and pay their bills. Nothing is mean which is honest and which enables us to do justice to all men, but that way of living which makes

FACTS ABOUT NEW THEORY SECURED BY INTERVIEWS

People Tell the Reason for Their Faith in Cooper's Belief.

An article from the Nashville, Tenn., Banner, published during L. T. Cooper's visit to that city, throws some light on the remarkable success of the young man's theories and medicines in various cities visited by him during the past year. The article is as follows:

"In view of the enormous sale of Cooper's preparations now going on in this city and the intense interest which Mr. Cooper has stirred up since his arrival, a representative of the Banner spent Thursday afternoon at the young man's headquarters, watching the swarm of humanity come and go.

"During the afternoon the reporter interviewed many of the callers and obtained statements from all who cared to give them as to their experience with Cooper and his preparations.

"The following are selected from those statements as being typical of the general expression of the people seen:

"Mr. B. B. Lasater, living at 1224 North Fourth avenue, when interviewed, said: 'I have been troubled with my stomach for the past two years, and have had rheumatism for more than five years. Sometimes I could not walk, and there were times when I could not even move in bed. Hard knots would form on my muscles, which caused me intense pain. Gas formed on my stomach after eating, which gave me much pain and distress, and often I was restless and tossed all night, losing much sleep and rest.

"'Hearing of Mr. Cooper and the great work his medicine was accomplishing for others, I decided to try it. I have taken it about two weeks, and find myself in a greatly improved condition. My stomach is in good shape, and does not trouble me at all. My rheumatism has nearly disappeared, and I expect to resume work shortly, for the first time in twelve months. Mr. Cooper certainly has a wonderful medicine, and I am grateful for what it has done for me.'

"Another caller was Mrs. T. J. Smith, of 505 Hudson street. She said: 'I have been a sufferer from bladder and kidney trouble for twenty-five years. In that time I have tried many prescriptions and various kinds of medicine, but received little or no benefit from them. I seldom had a sound night's sleep, my rest being broken at intervals throughout the night. I had pains in my back and burning sensations.

"'I heard so much of Mr. Cooper that I came to the conclusion he might be able to afford me some relief. I have now been taking the medicine about a week, and feel better in every way. The pain has disappeared, and I have no distress whatever. I have come here today to express my appreciation to Mr. Cooper for his wonderful medicine and what it has done in my case. I will take pleasure in recommending it to others.'

"In spite of assertions by various physicians that Cooper is a fad who will soon die out, the young man seems to be gaining even greater headway as his visit draws to a close."

The agency for Cooper's celebrated medicines has been given to us. We are making a fine record with them. —J. W. McCollum & Co.

a show at the expense of others is mean and un-Christian. Can anything be more humiliating to honest people than to see so-called church members, who owe bills right and left, defiantly pass their creditors by and spend for luxuries, entertainments, drink, travel, etc., the money that should be used to pay their debts? What can be more mortifying to Christian women of refinement than to learn that their husbands owe bills all around and make no honest effort to pay them? How painful to men of good principles to know that their wives are wasteful and extravagant with their wages and willfully negligent in paying bills long overdue? Is it not a frightful disgrace, then, if Christian families forfeit all confidence and credit, because they refuse to pay debts and loans?

Those who make light of paying their debts will make light of other obligations. Such people can have no correct Christian conscience, hence, there can be no reliable dependence for the fulfillment of other duties. To live beyond our means, to make a sham display at the expense of others, to run bills right and left without regard to how we can meet them, are condemned by the church and by all good-living people. A plain wedding, a modest funeral, common dress, honest living within our means, will command the respect of all upright people and bring God's approval and blessing. Honesty is the best policy that wears in this life and that will aid us to gain eternal life hereafter.

MOTHER AND CHILD DEAD.

Mrs. Hudson, Struck on Head, Stabbed in Heart; Almost Disemboweled.

Lawrenceville, Ga., Jan. 8.—One of the most diabolical crimes ever committed in Gwinnett county was perpetrated in Carter district, and as a result John Hudson and Henry Campbell, two negroes, are in jail here, charged with murder and arson.

The house of John Hudson was found to be on fire, and when neighbors came in they discovered the bodies of Hudson's wife and three-months-old baby in the flames.

The bodies were removed from the burning building, and it was seen at once that the woman had been murdered by a blow on the head. She was also stabbed through the heart, and then almost disemboweled.

The child was not killed, but was left to die in the flames.

Coroner M. J. Moon was notified, and after investigating the case ordered the arrest of John Hudson and Henry Campbell as the murderers.

Sheriff Brown immediately brought the two negroes to Lawrenceville, and placed them in jail. They will be given a preliminary trial Saturday.

STORM CAUSES VAST DAMAGE.

North Carolina Coast Ravaged By Severe Gale.

Morehead City, N. C., Jan. 8—The most severe storm prevailed here on Tuesday. The wind was blowing at a rate less than 75 miles per hour. Considerable damage has been done here, especially to boats and launches and yachts.

There has been no buildings reported blown down. Every one was more or less interested in the floating property here. The Norfolk and Southern railroad bridge, a mile long, between Morehead City and Beaufort, stood the storm well with the exception of two or three stretches out of line by the swift current. The loss here will be considerable.

At Beaufort it is rumored that every dock and warehouse on the water front has been taken away by the severe storm. Several boats are reported as a total loss. No reports have been received yet from the life saving station but coasters claim this storm has done untold damage on the North Carolina coast. The wind moderated some in the night. It was blowing from the west-southwest.

SURE FOR BECKHAM.

Most Spectacular Senatorial Contest Promised Kentucky.

Frankfort, Ky., Jan. 8.—The political game in Kentucky, proverbially tumultuous and uncertain, promises to furnish a spectacular senatorial contest.

The opening of the legislative sessions Monday finds the democrats severely shaken by the late election and with numerous rumors of disaffection in the camp. Nevertheless they have a majority of eight on joint ballot and the managers of former Governor J. C. W. Beckham, who was nominated at a primary eighteen months ago, claim that he will be elected as per schedule.

Pitted against Beckham is William O. Bradley, the only republican governor, barring W. S. Taylor, who held once between 1867 and 1907.

Governor Beckahm has declared that if the republicans "sit tight" they will win in the senatorial contest.

ORDINANCE NO. 142.

To Govern Plumbers and Regulate Plumbing and House Drainage, and the Inspection of same in Public and Private Property and Buildings in the City of Gainesville, Florida.

Sec. 1—Be it ordained by the Mayor and City Council of the City of Gainesville, Florida: That the plumbing done in the City of Gainesville shall be done under control and supervision of the Board of Public Works. There shall also be appointed one Inspector of Plumbing, who shall be a practical plumber, and whose compensation shall not exceed $1,000 per annum, payable monthly, and he shall be immediately under the supervision and control of said Board of Public Works, and his acts and doings may be reviewed, controlled and governed by said Board, upon complaints filed with said Board, and under written rules and regulations, which said Board shall have and keep.

Before entering upon his duties he shall take and subscribe an oath to faithfully and impartially discharge the duties of his office, and shall file with the Mayor of the City of Gainesville a good and sufficient bond, to be approved by the Board of Public Works, in the sum of $2,000, conditioned for the faithful and impartial performance of his duties.

Sec. 2—The Inspector shall keep a record of his work and make monthly reports, to the Board, covering all plumbing done within the city, and a list of condemned premises shall be kept in the office of the Secretary of the Board of Public Works for open inspection.

Sec. 3—That it shall be the duty of Inspector of Plumbing to investigate all complaints of defective plumbing and order such defects repaired and the work put in sanitary condition.

Sec. 4—All officers and employees provided for in this ordinance shall be under the supervision and control of the Board of Public Works, and all expense herein provided for shall be payable out of the funds provided for that purpose.

Sec. 5—That there shall be charged and collected by the Secretary of the Board of Public Works an inspection fee of $3.00 for each sewer connection, and an additional fee of 50 cents for each fixture on new and reconstructed plumbing work before the issuance of a permit; which fee will be placed to the credit of the Board, and the receipt of Secretary of the Board of Public Works shall be exhibited to the Inspector before the inspection is made.

Sec. 6—It shall be the duty of said Board of Public Works, together with the Plumbing Inspector, to examine and pass upon the applications of all who desire to engage in the business of plumbing, as a journeyman plumber, within the limits of the City of Gainesville. This examination shall satisfy the examiners as to the applicant's ability as a plumber, and his familiarity with the plumbing regulations in the City of Gainesville.

Sec. 7—That it shall be the duty of the City to issue to competent plumbers proper license, and it shall be unlawful for any person not thus licensed to be engaged in the business of plumbing within the City of Gainesville It s' ll be required of every person obtaining such license to file a bond with the Mayor, to be approved by the Board of Public Works, in the sum of $500.00, conditioned for the discharge of his duties as a plumber in accordance with the provisions of the ordinances of the City relative to plumbing, such bond being for the purpose of indemnifying the City against loss or suits for damages growing out of the negligence or carelessness of the plumber furnishing said bond. And, as a further protection to the City, it shall be required of every person or firm obtaining such license to deposit with the Board of Public Works the sum of $50.00, to be retained by them during the existence of license issued to such party as a guarantee that the sidewalks, curbs and gutters and streets shall be left in as good condition as found when work thereon was begun.

Sec. 8—That no person shall carry on the business of plumbing, or do any plumbing work for his own use, unless he shall first have received a license, or permit from the Board, and said work shall be inspected when completed.

Sec. 9—It shall be the duty of every plumber before proceeding with the construction of any new work, or the re-construction of any old work, except in the case of leaks or other repairs, which do not involve a change in sewerage drainage or ventilation systems, to submit to the Board a complete set of plans showing the proposed work to be performed, and no such work shall be done without a signed permit from the Board. The conditions of this permit must be strictly complied with, and the work must be done by the plumber in whose name the permit is given.

Sec. 10—When repairing old work any plumbing found to be in an unsanitary condition shall not be replaced, and the plumber executing the work shall put the same in such condition as will comply with the rules and regulations of the plumbing ordinances.

Sec. 11—Every building within the sewer district where public sewers are provided within two hundred feet, shall be connected therewith, and two or more buildings owned by the same person or persons, within the space of 105 feet front may be connected with such public sewer by one pipe, the size thereof to be designated by Board of Plumbing Commissioners.

Sec. 12—No connection shall be made with the public sewer except by a properly authorized plumber or licensed drain layer, furnished with a written permit in each and every case from the Board of Public Works.

Sec. 13—That when within a building, lead, brass or cast iron pipe and fittings shall be used for soil and waste pipe.

Sec. 14.—No connection shall be allowed with soil or waste pipe except those made with lead pipe and brass ferrules, all joints to be wiped on both soil and waste pipes. No cup joint, or joint made with soldering iron, will be allowed.

Sec. 15—Connections to cast iron vent pipes shall be made with brass ferrules and lead stubs, connected by wiped joints.

Sec. 16—Connection to galvanized iron vent pipes shall be made with brass solder nipples and lead stubs connected by wiped joints.

Sec. 17—Where buildings are set on piers, and sewer can be covered one foot at the shallow end, salt glazed sewer pipe can be used, but in case of enclosed buildings the sewer drains must in every case be of cast iron pipe, caulked with oakum and lead, and extend at least five feet beyond foundation walls.

Sec. 18—That when any sewer pipe passes within five feet of any well or cistern, or when any sewer pipe is laid under ground which has been made or filled in, such pipe shall be of cast iron, joints to be made of oakum and lead, in the usual manner.

Sec. 19—That all pipe systems must be as direct as possible, and shall have a proper fall toward the sewer, said grade to be not less than ¼ inch to the foot.

Soil pipe shall be carried full size through the roof, and shall be of such a height as may be directed by the Inspector, and no pipe shall be carried to a height of less than one foot above the roof of the main building, and above all openings, and same shall be left open at the top. No square bends will be allowed in either lead or cast iron waste pipes.

Sec. 20—That all four-inch stacks carried to the second floor must be extended full size through the roof.

Sec. 21—No pipe used for soil pipe shall be less than four-inch bore.

Sec. 22—At the bottom of each stack "Y" branches, and one-eighth bends shall be used, and a brass cleanout shall be placed at the base of every stack, and left accessible at all times.

Sec. 23—No opening shall be allowed in the sewer pipe in any building for the purpose of receiving the surface or ground water.

Sec. 24—Rainwater conductors shall not be connected with, or emptied into house sewers, nor used as soil, waste or vent pipes, nor shall any soil, waste or vent pipe be used as a rainwater conductor.

Sec. 25—No cistern over-flow shall have connection with the sewer.

Sec. 26—That every fixture shall have a separate approved trap placed as near the fixture as possible, except in case of wash trays, when one trap may be allowed for a set of three compartments of such fixtures. These traps shall be protected from syphonage by a vent pipe, of a size not less than the waste pipe, but vent pipes for water closets, slop hoppers, urinals, and closed or indoor grease traps, shall be of a size not less than two inches bore.

Sec. 27—That all traps shall be properly ventilated from the center of the crown, but where it is impractical to vent fixtures anti-syphon traps may be used, of such make as the Board may approve, by a special permit from the Board.

Sec. 28—Back air pipes shall be run in as direct lines as practicable, but shall be so arranged as to drain water or condensations, and shall either extend independently through and above the roof of a house, or be connected with the main soil pipe above the highest fixture in the building.

Sec. 29—Back-air venting may be dispensed with, in the case of a perpendicular continuous vent and waste pipe for a sink, basin or bath tub, where the trap can be connected by not more than eighteen inches of horizontal waste pipe.

Sec. 30—No more than three fixtures hall be allowed on a two-inch vent of forty feet or less. Where over forty feet in length or more than three fixtures, the vent shall be three-inch bore, and ten fixtures shall be allowed without regard to size of fixture. Where more than ten fixtures are placed, a four-inch vent pipe shall be used.

Sec. 31—That every water-closet, or line of water-closets on the same floor, shall be supplied with water from an independent tank or cistern for each closet, and the flush pipe shall be not less than one and one-quarter inches in diameter. No water-closet shall be supplied with water valve, or long hopper, shall be used in any building which may be constructed, or reconstructed, after the passage of this ordinance, and no closets shall be allowed except those of such makes as have traps above the floor. Where earthen ware closets are used a brass floor-plate must be soldered to the lead pipe where it comes through the floor, which brass plate must be screwed to the floor, and the earthen ware closet secured by bolts to the plate.

Sec. 32—Water-closets known as syphon jets or washdowns, not provided with trap vents, shall not be placed more than three feet horizontally, and eighteen inches perpendicularly, from a stack. Where two such closets are placed on the same stack, one on the lower, and one on the upper floor, the lower shall have a two-inch vent carried above all fixtures.

Sec. 33—No water-closet, known as a latrine or range closet, shall be allowed under any conditions whatever.

Sec. 34—That water-closets must never be placed in unventilated rooms or compartments. In every case the compartment must have an opening into the open air, or be ventilated by a shaft or airduct, having an area to the open air of at least four square feet.

Sec. 35—Waste pipes for sinks, bath tubs and wash trays must be not less than one and one-half inches, wastes for urinals or slop sinks shall be not less than two inches.

Sec. 36—That waste pipes, from safes under water-closets, basins for any other fixtures, shall in no case be connected with the house sewer. Sediment, blow-off pipes, steam exhaust pipes from boilers, and tank over-flow pipes, shall not be connected with the sewers.

Sec. 37—That waste pipes from refrigerators, or other receptacles in which provisions or food are stored, shall not be directly connected with the sewer. Such waste pipes shall be provided with traps suitably ventilated, and in every case there shall be open air space between the trap and fixture wasting into same.

Sec. 38—All soil and waste pipes shall be of cast iron, brass or lead, and no wrought-iron pipe shall be used in any case for waste pipes.

Sec. 39—Galvanized iron pipe will be allowed for vent pipes. Lead pipe, other than stub, shall not be used as vent pipes, unless its installation shall be what is termed "exposed." All unexposed vent pipes shall be of either cast or galvanized iron.

Sec. 40—No plumbing work shall be used unless the same has been subjected to a hydraulic test, and the entire plumbing system shall be left exposed until the work has been tested and passed upon by the inspector. When soil, waste and vent pipes are placed in position, with all necessary lead connections to receive fixtures properly placed, all openings shall be closed and the whole system filled with water to the highest point.

Sec. 41—All reconstructed plumbing work shall be subjected to a hydraulic test.

Sec. 42—After all fixtures have been placed, and traps filled with water, the whole shall be subjected to a smoke test, the top of the stack to be closed or plugged up, and a reasonable pressure of smoke shall be applied, to the satisfaction of the Inspector, when a certificate of approval will be issued to the plumber by said Inspector. This certificate does not relieve the plumber of his responsibility for any defective work which may have escaped the notice of the Inspector.

Sec. 43—These tests shall be provided by the plumber, in the presence of the Inspector, the Inspector to be given at least twenty-four hours notice when inspection is desired.

Sec. 44—It shall be the duty of the Inspector to promptly condemn and order the removal of any defective material, or of any work other than in accordance with the provisions of the regulations.

Sec. 45—All plumbing work must be done in a workmanlike manner, and to the entire satisfaction of the Inspector.

Sec. 46—Any person who shall fail or refuse to comply with the requirements of these regulations or shall violate, or be responsible for the violation of any of the provisions in this ordinance, shall be punished by fine of not more than two hundred dollars, or imprisonment not exceeding ninety days.

Sec. 47—That all ordinances, and parts of ordinances in conflict with the provisions of this ordinance, be and the same are hereby repealed.

KILLED GIRL, THEN HIMSELF.

Proposed Marriage to Cousin Who Refused, Shooting Followed.

Pine Apple, Ala., Jan. 9.—Malcolm McClelland, of Beatrice, Ala., shot and instantly killed his first cousin, Miss May Hawthorne, of the same place, here on Tuesday.

Miss Hawthorne had been visiting relatives in Pine Apple for several days, and during this time had been shown much attention by young McClelland. He proposed marriage, but was refused.

The young man went to the residence, where the young girl was visiting, and after talking with her for a few minutes, drew his pistol and shot her. Death was instantaneous. After seeing the young woman expire without a groan, McClelland placed the pistol against his breast and discharged it for the second time. He died two hours later. The tragedy created great excitement.

FOREIGN LOTTERY TRAFFIC.

Being Carried on in Spite of Postoffice and State Officials.

New York, Jan. 9.—Investigation of the traffic in lottery tickets on the East Side of the city shows that according to postoffice inspectors that not only in the traffic an extensive one, but that a large proportion of the tickets sold are forgeries and that thousands of people are being swindled each week by fake concerns which pay a small prize here and there to keep up interest in their enterprises.

Postal inspectors say that in spite of the utmost vigilance of the state and postoffice officials, a considerable number of tickets from the big lotteries in Germany and South America find their way into this country. Their number is small, however, compared with that of the fictitious concerns.

The Gray Horse.

You may change a farmer's religion or politics, make him think he is rich and handsome or sell him a dog, but you will never make him think a gray horse is not a jewel. I read somewhere recently that gray horses were not up to the standard, or words to that effect. I never was so astonished in my life. I have always thought, and do now, that gray or white horses were the handsomest, toughest breed on the planet.

The celebrated Arabian horses are white or dapple gray. Famous generals in all wars have ridden white or iron gray chargers. Circus men select gray horses to draw the band wagons in street parades. A great packing company always selects Percheron horses, not so much for the color, but because their feet will stand traveling on the pavement better than any draft breed. It is said that Joan of Arc rode a milk white horse, and St. John the revelator saw a white horse in heaven (Revelation vi, 2). Half of the draft horses in Aroostook are white or gray, and another decade will see 90 per cent of them of that color.

Value of a Cheap Acid.

In a vessel of platinum lined with gold some sulphuric acid hissed. "The vessel is costly, but the contents are hardly worth 2 cents a quart," said the chemist. "Yet you have no idea what a public benefactor sulphuric acid is. Without it, for instance, we could have none of the finer sorts of Fourth of July fireworks, and neither could we have any more war, for gun cotton, nitroglycerin, lyddite, dynamite—in fact, all the high explosives—could not be made without sulphuric acid. Without it we could have no coal tar dyes. It is this acid that releases the lovely colors locked in coal tar's black slime. Without it the farmers would have none of the wonderful superphosphate fertilizers. It is sulphuric acid that, poured on worthless old bones, turns them into a marvelous soil stimulant. Yes, this, the cheapest of all acids, is admitted to be the most valuable of all acids as well."—Exchange.

Diamond Versus Paste.

"It's curious how little vanities keep some men keyed up to a point where they are on good terms with themselves," was the philosophic comment of a private detective who is a figure in the daily life of the Wall street district.

"What I mean is this, for example: It's my business to know a good many men, high and low, down here. Now, you can take it from me that four out of five of those you see dashing along the street or in and out of big buildings with worried expressions or faces which suggest that their owners are bearers of stupendous business cares and responsibilities are really underlings whose work is routine and who would be staggered if they had to risk personally a thousand dollars, while the real burden bearers more often than not appear with unruffled brow and without undue precipitation. It's a part of the game.

"Queer, isn't it? Just a little sidelight on New York's 'Vanity Fair.'"—New York Globe.

COMFORTING WORDS

Many a Florida Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Florida readers.

A. Oerting, seaman, of 419 L. street, Pensacola, Fla., tells how to do it. He says: "From my experience with Doan's Kidney Pills I can strongly recommend them to anyone in need of a good medicine for the kidneys. Kidney complaint and backache caused me suffering at intervals for years. The first or second attack I did not mind, but as time went by they grew worse and at times laid me up. I could hardly walk and it was a difficult matter to straighten up after stooping, while the kidney secretions were irregular and unnatural. Doan's Kidney Pills cured me. From personal experience I know that this remedy can be depended upon to fulfill the representations made for it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

A NEW MOTIVE POWER.

Torpedo Boats Can Attain Speed of Sixty Miles An Hour.

New York, Jan. 7.—A new motive power known as "motorite," which is expected to revolutionize torpedoes and torpedo boats and possibly in the future replace steam as a motive power for ocean-going vessels, has been invented, it is announced, by Hudson Maxim, the well known inventor. It is said that Mr. Maxim has already made extensive tests with models of torpedoes and torpedo boats and has notified the government of his invention.

"Motorite," the new motive power, which is the basis of the torpedo and the torpedo boat is said to be a combination of certain powerful explosives and by means of it torpedoes and torpedo boats are propelled through the water at great speed. Mr. Maxim says that an ordinary-sized torpedo can be sent through the water at a speed of sixty miles an hour while the best of the present gasoline driven projectiles do not travel faster than thirty-five miles an hour. Mr. Maxim's new model torpedo boat, which is practically submerged, can be propelled, the inventor says, at the rate of from 55 to 60 miles an hour.

The Story of a Bust.

Among the busts at the Pincio, says Paolo Pica in the Vita, is one of the poet Vincenzo Monti, which has a curious history. The portrait bust was originally that of Vittorio Alfieri, a contemporary of Monti's and his sworn enemy. Alfieri had gained fame as a writer of tragedies. Shortly after the Alfieri bust had been placed in position the writer gave offense to the Vatican by one of his works, and the bust was taken down and put in the cellar. In its place came a bust of the poet Alessandro Berri. But Pincio honors were not lasting and it was only a short time before the composer Bellini replaced Berri. The bust in the cellar had not been forgotten, and when Vincenzo Monti was named for the honor the old marble was brought forth, and with file and chisel it was made over. The normal nose was converted into a most peculiar organ, which still shows the scars of the operation; the hair was cropped, the bushy eyebrows were shorn, and the cheeks were rounded, and so Alfieri became and still is Monti—a proof that monumental marble and bronze are not always truthful.

Special Announcement Regarding the National Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.
